*Omega "V"*

*Introducing;  
The World's First dedicated  
Veterinary – Ozone Topical  
Treatment & Therapy  
System*

*Med O Zone* <sup>TM</sup>

*Omega "V"*

*Attention: Veterinary Tech*  
*“This is your opportunity to be*  
*the Practice Hero”*

## **How can this new device benefit the practice and our patients?**

**The following PowerPoint Slides will provide you with details as to how this can benefit the Practice, the Veterinarian and the Patient.**

**We ask that you take the opportunity to review this new information with an open mind and share it with the Practice Owner and/or Veterinarian.**

**We understand the day to day flurry of activity and it is sometimes difficult to interrupt the physician with significant time constraints.**

**So – we are asking for your valuable opinion and that you share this information at the appropriate time with the decision maker**

***We know how this will impact your practice in such a favorable way..... it will change the way Veterinarians practice Medicine in the 21<sup>st</sup> Century.***

**Please.....don't keep it a secret!**

# IMAGINE!

*Natural & Safe – Painless - Drug Free – Chemical Free Alternative*

**Medozone – Omega “V” – a medical device that generates a natural Ozone Gas – Applied with a hand piece and “Air Brush” Technique**

**Omega “V” Ozone kills everything – Microorganisms – Bacteria, Viruses and Fungi..... in seconds!**

*Sterilization*

*.....it  
Cauterizes*

*Re-Mineralizes*

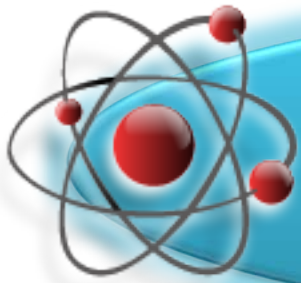

*....it will  
Decontaminate*

*.....promotes  
Coagulation*

*Re-Epithelialization – accelerated Healing*

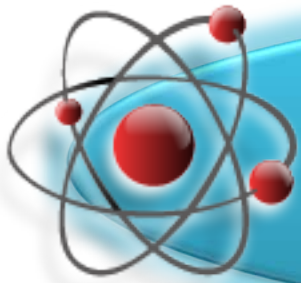

*Aides with Cementation, Restoration and Whitening Properties  
for Veterinary Dentistry*

*.....all with a natural & simple “Puff of Air” .....and  
without the use of potentially harmful Toxins, Drugs and  
Chemicals!*

## What exactly is Med O Zone <sup>TM</sup> and how could it benefit the Practice of Veterinary Medicine?

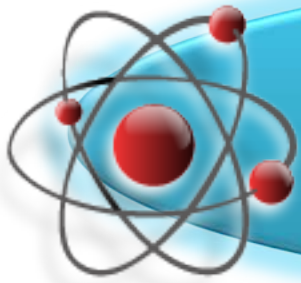

**Med O Zone <sup>TM</sup> – Omega “V” is a Veterinary Device that essentially generates a safe, non-toxic and natural Ozone from ambient air. Ozone ( $O_3$ ) is a natural element and simply a byproduct of oxygen ( $O_2$ ). Ozone is commonly and safely used to purify the water we drink, the food we eat and even – the air we breath! It’s properties have been safely explored and applied for more than 5 decades by more than 20,000 Physicians, Dentists, Veterinarians and Scientists worldwide. It can provide a safe, natural and efficacious alternative to many toxins, chemicals and drugs.**

## How is the Omega “V” System applied in Veterinary Medicine

The Omega “V” System from Med O Zone <sup>TM</sup> is produced from a semi-portable system intended for controlled topical application. The generator is *“smaller than a bread box”*, and *generates Ozone that is delivered to the treatment site through a hand piece – much like that used by a surgeon or dentist. It is then applied to the treatment site directly through a blunt cannula or to a site controlled and harnessed “O-Dome” chamber (Work in Process).*

*It is not intended for injection, bolus application, forced ingestion or insufflations*

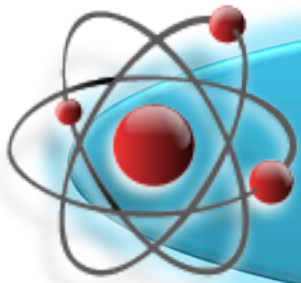

# What are some of the treatment properties and applications of Omega “V”

*The possibilities are almost endless!.....*

*Let's examine the natural effects of the*

*Omega “V” System to a wound or surgical site:*

- *Sterilization – Ozone kills all microorganisms – instantly*
- *Desensitization – provides a drug-free, chemical-free and injection-free alternative for pain relief ...permanently!*
- *Cauterization – when applied to the surgical or wound site – it immediately Cauterizes – naturally!*
- *Coagulation – accelerates and preserves the surgical or wound site to immediately arrest bleeding and accelerate vital transfer of essential minerals.*
- *Remineralization – Stimulates the productivity of mineral deposits (Essential to Coagulation) to enhance tissue restoration.*

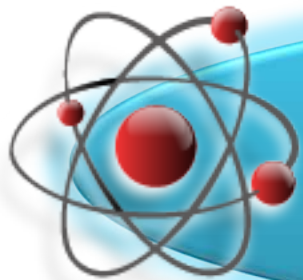

## What are some of the treatment properties and applications of Omega “V”

*The possibilities are almost endless!.... **more good reasons!***

*Let's examine the natural effects of the **Omega “V” System** to a wound or surgical site:*

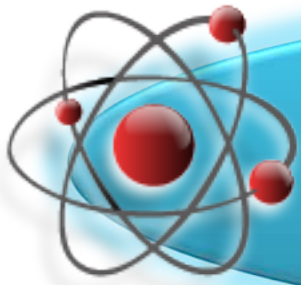

- **Re-Epithelialization – rebuilds the epithelium – accelerates the healing process > towards cell restoration**
- **Aids the Cementation Process – as it relates to prosthetic restoration – intra-oral Veterinary Dental – crowns, etc.**
- **Drug-free alternative to costly and potentially harmful topical Anti-microbial medications with serious contraindications.**
- **Decontamination – Can be utilized safely to rapidly disinfect small and large zones of contamination.**

## What restrictions or approval is required by the FDA for the Omega “V” System

***The Omega “V” System from Med O Zone <sup>TM</sup> is classified as a “Veterinary Device” and currently \*(according to Center for Veterinary Medicine – FDA- HHS) there is no need to register and “NO” requirement or process in place to seek Pre-Market Approval***

***\*Reference: Department of Health & Human Services  
Food & Drug Administration  
Center for Veterinary Medicine  
HFV – 234  
7519 Standish Place  
Rockville, Maryland 20855***

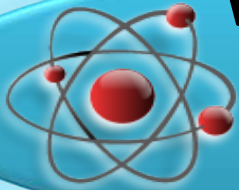

**In what fields of Veterinary  
Medicine could the  
Omega “V” System be applied?**

*Virtually all areas of Veterinary Medicine can utilize  
the Omega “V” system easily:*

*Small or Large animals – Equine, Bovine, Canine,  
Feline, Aviary, Reptilian, Amphibians, Livestock,  
Poultry > .....for all zoological applications.*

*It can be utilized in Veterinary Hospitals, Veterinary  
Teaching Facilities, Zoos, Veterinary Clinics,  
Aquariums, Emergency aid facilities and in the field.*

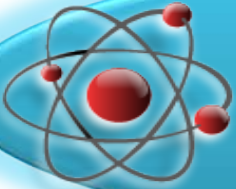

# Who is qualified to purchase and use the Omega “V” System?

*The sale and purchase of the Med O Zone <sup>TM</sup>-Omega “V” System is strictly limited to certified or licensed Veterinary Professionals – based on the requirements of Federal, State, County or Municipal district of jurisdiction in which the practice resides.*

*No system will be delivered without submission of proper credentials.*

*It’s proper use is reserved for qualified Veterinary Professionals only.*

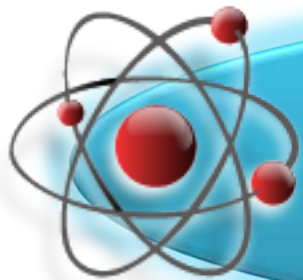

## What is the financial benefit to the practice I work with ?

*The Med O Zone Omega “V” System could be the most cost effective stream of revenue ever offered to the Veterinary Profession*

***What if:** we suggested that the Veterinarian provide a treatment using the suggested One Minute increment and charge \$ 50.00 per minute and.....**What if:** we could \*estimate the cost at less than \$ 2.00 per treatment minute.....Would you or your practice owner consider that profitable?*

*Currently Dentists charge as much as \$ 67.00 per treatment minute....or more!*

*\* Estimates depending upon charges, volume of use, and estimated performance expectancy of the typical system.*

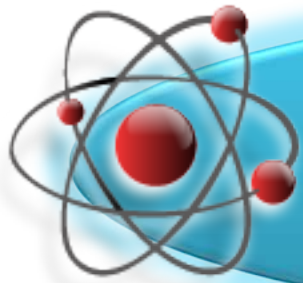

## What training is required for application of the Omega "V" System

*No extensive training is needed or required in the hands of a Veterinary Professional.*

*No travel is required..and no extensive stay or additional costs are associated.*

*Training can be accomplished with a combination of - and via webinar, video production, written source information and teleconferences.*

*A certified and qualified instructor will be assigned to each unit delivered.*

## Where is the system manufactured, serviced and what is the warranty?

- *All Med O Zone Systems are manufactured, shipped, serviced and supported from the Ozone Institute in Palm Beach Gardens, Florida – U.S.A.*
- *Standard manufacturers limited warranty applies – with One (1) year parts and labor.*
- *Current delivery standards are 45 day delivery – charged upon shipment and prior to delivery. Special terms apply for volume orders.*

## System and installation requirements – Omega “V”

- *The system has no installation prep requirements*
- *The system currently requires a safe 110 – 120 Volt AC power source. Simple standard – and grounded receptacle.*
- *The Omega “V” System is powered by a simple – built-in step-up transformer. No external transformer required.*
- *\*“Work in Process” – 12 Volt – battery power source - portable unit for field operation.*

*It is generally accepted and the responsibility of every Veterinarian to investigate and utilize every possible means, and the tools available, to minimize stress, pain & suffering to the helpless. To embrace the accelerated healing process and eliminate harmful remnant microorganisms in their path. To close the wound – having left nothing behind.....but the best prognosis of favorable results and well being.*
